

## INDEX OF VOLUME 51

### PART 1 – SUBJECT INDEX

- A 3-D thermal model for spot laser transmission welding of thermoplastics – Mayboudi L.S., Birk A.M., Zak G., Bates P.J. (Canada) – IIW-1774-06 (ex-doc. XVI-852-06) – (No. 1/2, January/February).
- Abrasive water suspension jet technology – Fundamentals, application and developments – Louis H., Pude F., von Rad Ch., Versemann R. (Germany) – IIW-1810-07 (ex-doc. I-1149-04/I-E-363-03) – (No. 9/10, September/October).
- Adhesive joints under crash loading: Experiments and modelling of the failure behaviour – Wissling M., Hahn O. (Germany) – IIW-1776-06 (ex-doc. XVI-851-06) – (No. 1/2, January/February).
- An overview of the heat-affected zone sensitization and stress corrosion cracking behaviour of 12 % chromium type 1.4003 ferritic stainless steel – Du Toit M., Van Rooyen G.T., Smith D. (South Africa) – IIW-1814-07 (ex-doc. IX-2213-06/IX-H-640-06) – (No. 9/10, September/October).
- Application of the local fatigue strength concept for the evaluation of post weld treatments – Nitschke-Pagel Th., Wohlfahrt H., Dilger K. (Germany) – IIW-1839-07 (ex-doc. XIII-2099r2-06) – (No. 11/12, November/ December).
- Assessment of components in high temperature service – Dogan B., Ceyhan U. (Germany), Tonti A., Altieri C., Ruggeri I., China M. (Italy) – IIW-1796-06 (ex-doc. X-1611-06/XI-854-06) – (No. 5/6, May/June).
- Characterisation of cracks in high strength steel weldments – Enzinger N., Cerjak H. (Austria) – IIW-1845-07 (ex-doc. IX-2186-06) – (No. 11/12, November/ December).
- Corrosion testing of welds, a review of methods – Pettersson C.O. (Sweden), Böllinghaus T., Kannengiesser T. (Germany) – IIW-1804-07 (ex-doc. IX-2197-06/IX-H-635-06) – (No. 7/8, July/August).
- Dissimilar metal joining of steel and titanium by laser roll welding – Kutsuna M., Ichioka R. (Japan) – IIW-1754 06 (ex doc. IV-892-05) – (No. 1/2, January/February).
- Economic orthogonally welded stiffening of an uniaxially compressed steel plate – Farkas J., Jármay K. (Hungary) – IIW-1790-06 (ex-doc. XV-1221-06) – (No. 7/8, July/August)
- Effects of measurement accuracy of in-line inspection tools with regard to the integrity assessment of ageing pipeline infrastructure – Reber K., Atto A., Barbian A. (Germany) – IIW-1788-06 (ex-doc. V-1362-06) – (No. 5/6, May/June).
- Elastic predicting method of weld distortion of large structures using numerical simulation results by thermal-elastic-plastic analysis of small component – Mochizuki M., Mikami Y., Yamasaki H., Toyoda M. (Japan) – IIW-1855-07 (ex-doc. X-1607-06) – (No. 11/12, November/December).
- Fatigue behaviour of high strength steel thin sheet assemblies – Galtier A., Duchet M. (France) – IIW-1784-06 (ex-doc. III-1384-06) – (No. 3/4, March/April).
- Fatigue life evaluation of shot peened Al-alloys 5083 H11 T-welded joints by experimental and numerical approaches – Sidhom N. (Tunisia), Braham C., Lieurade H.P. (France) – IIW-1771-06 (ex-doc. XIII-2080-05) – (No. 1/2, January/February).
- FEM-MD combined method for investigation on effects of microscopic heterogeneity near weld zone on strength characteristics – Higuchi R., Mochizuki M., Toyoda M. (Japan) – IIW-1793-06 (ex-doc. X-1606-06) – (No. 7/8, July/August).
- FITNET Fitness-for-Service procedure: an overview – Koçak M. (Germany) – IIW-1767-06 (ex-doc. X-1603-06) – (No. 5/6, May/June).
- FKM guideline “Fracture mechanics proof of strength for engineering components” – Overview and extension topics – Pyttel B., Varfolomeyev I., Luke M., Berger C., Siegele D. (Germany) – IIW-1807-07 (ex-doc. X-1600-06) – (No. 5/6, May/June).
- Four decades of electron beam development at TWI – Sanderson A. (United Kingdom) – IIW-1770-06 (ex-doc. IV-913-06) – (No. 1/2, January/February).
- Fracture mechanics assessment of beam-to-column joints subjected to cyclic and dynamic loading – Minami F., Ohata M. (Japan) – IIW-1777-06 (ex-doc. X-1596-06) – (No. 5/6, May/June).
- Further investigations of ductility-dip cracking in high chromium, Ni-base filler metals – Lippold J.C., Nissley N.E. (United States) – IIW-1809-07 (ex-doc. II-1600-06) – (No. 9/10, September/October).
- Improvement of fatigue life of welded structural components by grinding – Hansen A.V., Agerskov H., Bjørnbak-Hansen J. (Denmark) – IIW-1779-06 (ex-doc. XIII-2051-05) – (No. 3/4, March/April).
- Improvement of HAZ toughness for high heat input welding by using boron diffusion from weld metal – Kitani Y., Ikeda R., Yasuda K., Oi K., Ichimiya K. (Japan) – IIW-1752-06 (ex-doc. II-1565-05/II-A-152-04) – (No. 1/2, January/February).
- Influence of service life of gas pipelines on magnetic properties of welded joints – Lobanov L.M., Bondarenko Yu.K., Bondarenko A.Yu., Gromyak Yu.R. (Ukraine) – IIW-1786-06 (ex-doc. V-1349-06) – (No. 5/6, May/June).
- Influence of welding residual stresses on fatigue design of welded joints and components – Krebs J., Kassner M. (Germany) – IIW-1805-07 (ex-doc. XIII-2126-06/XV-1220-06) – (No. 7/8, July/August).

Investigation of structure and crack formation in welded joints of single crystal Ni-base alloys – Savchenko V.S., Yushchenko K.A., Zvjagintseva A. (Ukraine), David S.A., Vitek J.M. (United States) – IIW-1817-07 (ex-doc. SC-AIR-018r1-06) – (No. 11/12, November/December).

Investigation of thermal-deformation state of welded joints in stable-austenitic steels and nickel alloys – Yushchenko K.A., Makhnenko V.I., Savchenko V.S., Chervyakov N.O., Velikoivanenko E.A. (Ukraine) – IIW-1816-07 (ex-doc. IX-2224-06/IX-H-641-06/SC-AIR-019-06) – (No. 9/10, September/October).

Material flow around a friction stir welding tool: development of a thermo-fluid code – De Vuyst T., D'Alvise L. (Belgium) – IIW-1781-06 (ex-doc. III-1403-06) – (No. 3/4, March/April).

Microstructural characterisation of as-deposited and reheated weld metal – High strength steel weld metals – Keehan E., Karlsson L., Thuvander M., Bergquist E.L. (Sweden) – IIW-1782-06 (ex-doc. IX-2187-06) – (No. 3/4, March/April).

Modularised laser beam cutting technology for dismantling applications – Drygalla M., Haferkamp H., Bunte J., von Busse A. (Germany) – IIW-1811-07 (ex-doc. I-1150-04/I-E-377-04) – (No. 9/10, September/October).

Numerical simulation of distortion and residual stresses of dual phase steels weldments – Brand M., Siegele D. (Germany) – IIW-1820-07 (ex-doc. X-1597-06) – (No. 9/10, September/October).

On the residual stress profiles in new API 579/ASME FFS-1 Appendix E – Dong P., Hong J.K. (United States) – IIW-1803-07 (ex-doc. X-1612-06/XI-852-06) – (No. 5/6, May/June).

Plasma cutting in the multi-purpose research reactor (MZFR) – Underwater use at steel thicknesses of up to 130 mm – Pfeifer W., Eisenmann B., Bach Fr.-W., Versemann R., Bienia H., Krink V., Laurisch F. (Germany) – IIW-1812-07 (ex-doc. I-1151-04/I-E-381-04) – (No. 11/12, November/December).

Point counting of intermetallic phase precipitates in ferritic-austenitic stainless steels – Leonard A.J., Gregori A., Woollin P. (United Kingdom) – IIW-1844-07 (ex-doc. IX-2155-05) – (No. 11/12, November/December).

Postweld heat treatment to avoid intergranular stress corrosion cracking of supermartensitic stainless steels – Woollin P. (United Kingdom) – IIW-1819-07 (ex-doc. IX-2193-06/IX-H-630-06) – (No. 9/10, September/October).

Prediction of Ferrite Number in stainless steel welds using Bayesian Neural Network model – Vasudevan M., Bhaduri A.K., Raj B. (India) – IIW-1801-07 (ex-doc. II-1595-06) – (No. 7/8, July/August).

Prediction of the mechanical properties and fracture mechanical values of welded joints out of pipeline-steels (X70 and X80) – Felber S. (Austria) – IIW-1775-06 (ex-doc. XI-838-05) – (No. 1/2, January/February).

Prediction of the mechanical properties and fracture mechanical values of welded joints out of the pipeline-steels X70 and X80 and the duplex-steel 1.4462 for flow lines – Felber S. (Austria) – IIW-1792-06 (ex-doc. XI-846-06) – (No. 5/6, May/June).

Quantitative morphological analysis of carbon black in polymers used in laser transmission welding – Wang C.Y. (China), Bates P.J., Aghamirian M., Zak G., Nicholls R., Chen M. (Canada) – IIW-1780-06 (ex-doc. XVI-859-06) – (No. 3/4, March/April).

Rehabilitation and repair of welded elements and structures by ultrasonic peening – Kudryavtsev Y., Kleiman J. (Canada), Lugovskoy A., Lobanov L., Knysh V., Voitenko O., Prokopenko G. (Ukraine) – IIW-1806-07 (ex-doc. XIII-2076-05) – (No. 7/8, July/August).

Relations between dilution and characteristics of over-alloyed welded seams on super duplex stainless steel – Herold H., Zinke M., Huebner A., Schilling K., Boese E., Goellner J. (Germany) – IIW-1799-07 (ex-doc. II-1584-06) – (No. 7/8, July/August).

Residual stress analysis of laser welded aluminium T joints using neutron diffraction – Bayraktar F.S., Staron P., Koçak M., Schreyer A. (Germany) – IIW-1769-06 (ex-doc. X-1610-06) – (No. 1/2, January/February).

Residual stress distribution of steel welded joints with weld metal of low martensite transformation temperature – Shiga C., Hiraoka K. (Japan), Mraz L., Bernasovsky P. (Slovakia), Mikula P., Vrana M. (Czech Republic) – IIW-1824-07 (ex-doc. IX-2149r1-05) – (No. 11/12, November/December).

Residual stress prediction and relaxation in welded tubular joint – Barsoum Z. (Sweden) – IIW-1773-06 (ex-doc. XIII-2135-06/XV-1225-06) – (No. 1/2, January/February).

Resistance nut welding: improving the weldability and joint properties of ultra high strength steels – Tolf E., Hedegård J. (Sweden) – IIW-1791-06 (ex-doc. III-1388-06) – (No. 3/4, March/April).

Resistance spot weldability of high strength steel sheets for automobiles and the quality assurance of joints – Oikawa H., Murayama G., Hiwataishi S. (Japan), Matsuyama K. (United States) – IIW-1783-06 (ex-doc. III-1382-06) – (No. 3/4, March/April).

Round-Robin study on stress analysis for the effective notch stress approach – Fricke W. (Germany) – IIW-1789-06 (ex-doc. XIII-2129-06/XV-1223-06) – (No. 3/4, March/April).

Single sensor differential thermal analysis of phase transformations and structural changes during welding and postweld heat treatment – Alexandrov B.T., Lippold J.C. (United States) – IIW-1843-07 (ex-doc. IX-2199-06) – (No. 11/12, November/December).

Sources of scatter in creep/fatigue crack growth testing and their impact on plant assessment – Dogan B., Ceyhan U., Mueller F. (Germany), Korous J. (Czech Republic), Ainsworth R. (United Kingdom) – IIW-1795-06 (ex-doc. XI-858-06) – (No. 7/8, July/August).

Special cases of the calculation of residual welding distortions – Farkas J., Jármai K. (Hungary) – IIW-1794-06 (ex-doc. XV-1205-06/XV-F-74-06) – (No. 7/8, July/August).

Study of improvement of fatigue properties of welded joints by compressive stress induced by plasma spraying – Huo L., Zhang Z., Wang D., Zhang Y. (China) – IIW-1772-06 (ex-doc. XIII-2095-06) – (No. 1/2, January/February).

Summary and comparison of fitness-for-service rules for structural components in the world – Hasegawa K. (Japan) – IIW-1808-07 (ex-doc. X-1613-06/XI-861-06) – (No. 5/6, May/June).

Tensile and toughness properties of pipeline girth welds – Gianetto J.A., Bowker J.T., Bouchard R., Dorling D.V., Horsley D. (Canada) – IIW-1800-07 (ex-doc. XI-853-06) – (No. 5/6, May/June).

The design master S-N curve in ASME Div 2 rewrite and its validations – Dong P., Prager M., Osage D. (United States) – IIW-1802-07 (ex-doc. XI-851-06) – (No. 5/6, May/June).

The role of probabilistic approaches in NDT defect-detection, -classification, and -sizing – Dobmann G.,

Cioclov D., Kurz J.H. (Germany) – IIW-1787-06 (ex-doc. V-1350-06) – (No. 5/6, May/June).

Treatments of structural welds using FITNET Fitness-for-Service assessment procedure – Koçak M., Seib E. (Germany), Motarjemi A. (United Kingdom) – IIW-1768-06 (ex-doc. X-1604-06) – (No. 5/6, May/June).

Trend of automobile vehicles and the joining technologies – Matsuyama K. (United States) – IIW-1785-06 (ex-doc. III-1386-06) – (No. 3/4, March/April).

Welding and deposition of nickel superalloys 718, Waspaloy and single crystal alloy CMSX-10 – Gregori A., Bertaso D. (United Kingdom) – IIW-1854-07 (ex-doc. IX-2192r1-06) – (No. 11/12, November/December).

## PART 2 — AUTHOR INDEX

Agerskov H., Bjørnbak-Hansen J., Hansen A.V. (Denmark) – Improvement of fatigue life of welded structural components by grinding – IIW-1779-06 (ex-doc. XIII-2051-05) – (No. 3/4, March/April).

Aghamirian M., Zak G., Nicholls R., Chen M., Bates P.J. (Canada), Wang C.Y. (China) – Quantitative morphological analysis of carbon black in polymers used in laser transmission welding – IIW-1780-06 (ex-doc. XVI-859-06) – (No. 3/4, March/April).

Ainsworth R. (United Kingdom), Dogan B., Ceyhan U., Mueller F. (Germany), Korous J. (Czech Republic) – Sources of scatter in creep/fatigue crack growth testing and their impact on plant assessment – IIW-1795-06 (ex-doc. XI-858-06) – (No. 7/8, July/August).

Alexandrov B.T., Lippold J.C. (United States) – Single sensor differential thermal analysis of phase transformations and structural changes during welding and post-weld heat treatment – IIW-1843-07 (ex-doc. IX-2199-06) – (No. 11/12, November/December).

Altieri C., Ruggeri I., China M., Tonti A. (Italy), Dogan B., Ceyhan U. (Germany) – Assessment of components in high temperature service – IIW-1796-06 (ex-doc. X-1611-06/XI-854-06) – (No. 5/6, May/June).

Atto A., Barbian A., Reber K. (Germany) – Effects of measurement accuracy of in-line inspection tools with regard to the integrity assessment of ageing pipeline infrastructure – IIW-1788-06 (ex-doc. V-1362-06) – (No. 5/6, May/June).

Bach Fr.-W., Verseemann R., Bienia H., Krink V., Laurisch F., Pfeifer W., Eisenmann B. (Germany) – Plasma cutting in the multi-purpose research reactor (MZFR) – Underwater use at steel thicknesses of up to 130 mm – IIW-1812-07 (ex-doc. I-1151-04/I-E-381-04) – (No. 11/12, November/December).

Barbian A., Reber K., Atto A. (Germany) – Effects of measurement accuracy of in-line inspection tools with regard to the integrity assessment of ageing pipeline

infrastructure – IIW-1788-06 (ex-doc. V-1362-06) – (No. 5/6, May/June).

Barsoum Z. (Sweden) – Residual stress prediction and relaxation in welded tubular joint – IIW-1773-06 (ex-doc. XIII-2135-06/XV-1225-06) – (No. 1/2, January/February).

Bates P.J., Mayboudi L.S., Birk A.M., Zak G. (Canada) – A 3-D thermal model for spot laser transmission welding of thermoplastics – IIW-1774-06 (ex-doc. XVI-852-06) – (No. 1/2, January/February).

Bates P.J., Aghamirian M., Zak G., Nicholls R., Chen M. (Canada), Wang C.Y. (China) – Quantitative morphological analysis of carbon black in polymers used in laser transmission welding – IIW-1780-06 (ex-doc. XVI-859-06) – (No. 3/4, March/April).

Bayraktar F.S., Staron P., Koçak M., Schreyer A. (Germany) – Residual stress analysis of laser welded aluminium T joints using neutron diffraction – IIW-1769-06 (ex-doc. X-1610-06) – (No. 1/2, January/February).

Berger C., Siegele D., Pyttel B., Varfolomeyev I., Luke M. (Germany) – FKM guideline “Fracture mechanics proof of strength for engineering components” – Overview and extension topics – IIW-1807-07 (ex-doc. X-1600-06) – (No. 5/6, May/June).

Bergquist E.L., Keehan E., Karlsson L., Thuvander M. (Sweden) – Microstructural characterisation of as-deposited and reheated weld metal – High strength steel weld metals – IIW-1782-06 (ex-doc. IX-2187-06) – (No. 3/4, March/April).

Bernasovsky P., Mraz L. (Slovakia), Mikula P., Vrana M. (Czech Republic), Shiga C., Hiraoka K. (Japan) – Residual stress distribution of steel welded joints with weld metal of low martensite transformation temperature – IIW-1824-07 (ex-doc. IX-2149r1-05) – (No. 11/12, November/December).

Bertaso D., Gregori A. (United Kingdom) – Welding and deposition of nickel superalloys 718, Waspaloy and single crystal alloy CMSX-10 – IIW-1854-07 (ex-doc. IX-2192r1-06) – (No. 11/12, November/December).

- Bhaduri A.K., Raj B., Vasudevan M. (India) – Prediction of Ferrite Number in stainless steel welds using Bayesian Neural Network model – IIW-1801-07 (ex-doc. II-1595-06) – (No. 7/8, July/August).
- Bienia H., Krink V., Laurisch F., Pfeifer W., Eisenmann B., Bach Fr.-W., Versemann R. (Germany) – Plasma cutting in the multi-purpose research reactor (MZFR) – Underwater use at steel thicknesses of up to 130 mm – IIW-1812-07 (ex-doc. I-1151-04/I-E-381-04) – (No. 11/12, November/December).
- Birk A.M., Zak G., Bates P.J., Mayboudi L.S. (Canada) – A 3-D thermal model for spot laser transmission welding of thermoplastics – IIW-1774-06 (ex-doc. XVI-852-06) – (No. 1/2, January/February).
- Bjørnbak-Hansen J., Hansen A.V., Agerskov H. (Denmark) – Improvement of fatigue life of welded structural components by grinding – IIW-1779-06 (ex-doc. XIII-2051-05) – (No. 3/4, March/April).
- Boese E., Goellner J., Herold H., Zinke M., Huebner A., Schilling K. (Germany) – Relations between dilution and characteristics of over-alloyed welded seams on super duplex stainless steel – IIW-1799-07 (ex-doc. II-1584-06) – (No. 7/8, July/August).
- Böllinghaus T., Kannengiesser T. (Germany), Pettersson C.O. (Sweden) – Corrosion testing of welds, a review of methods – IIW-1804-07 (ex-doc. IX-2197-06/IX-H-635-06) – (No. 7/8, July/August)
- Bondarenko A.Yu., Gromyak Yu.R., Lobanov L.M., Bondarenko Yu.K. (Ukraine) – Influence of service life of gas pipelines on magnetic properties of welded joints – IIW-1786-06 (ex-doc. V-1349-06) – (No. 5/6, May/June).
- Bondarenko Yu.K., Bondarenko A.Yu., Gromyak Yu.R., Lobanov L.M. (Ukraine) – Influence of service life of gas pipelines on magnetic properties of welded joints – IIW-1786-06 (ex-doc. V-1349-06) – (No. 5/6, May/June).
- Bouchard R., Dorling D.V., Horsley D., Gianetto J.A., Bowker J.T. (Canada) – Tensile and toughness properties of pipeline girth welds – IIW-1800-07 (ex-doc. XI-853-06) – (No. 5/6, May/June).
- Bowker J.T., Bouchard R., Dorling D.V., Horsley D., Gianetto J.A. (Canada) – Tensile and toughness properties of pipeline girth welds – IIW-1800-07 (ex-doc. XI-853-06) – (No. 5/6, May/June).
